📍 Nakhon Pathom, Thailand

🌐 Natthakan Jamratphum

OBJECTIVE

Highly motivated Software Engineering student with a strong foundation in both Manual and Automated Testing. Proficient in designing test cases, bug reporting, and API testing using Postman. Possesses hands-on experience with Robot Framework, CI/CD pipelines (Jenkins), and static code analysis (SonarQube). Combines technical QA skills with a high attention to detail gained from validating complex operational documentation.

EXPERIENCE

Documentation & Student Support Assistant 2023 – Present
Student Loan Office (กยศ.)

- Reviewed and verified over 200 student loan applications and supporting documents with high accuracy.
- Checked document completeness, data consistency, and compliance with required procedures.
- Coordinated with students and internal staff to clarify missing information and resolve document-related issues.
- Developed strong attention to detail, communication, responsibility, and problem-solving skills through daily document validation tasks.

EDUCATION

Bachelor of Science in Software Engineering 2023 – 2027
Nakhon Pathom Rajabhat University
GPA: 3.89

TECHNICAL SKILLS

Technical Skills – JavaScript, TypeScript, React, PHP, SQL (Basic)
QA Testing – Manual Testing, Test Case Design, Bug Reporting, API Testing (Postman), Automation Testing (Robot Framework), Static Code Analysis (SonarQube)
Tools – Jira, Jenkins (CI/CD), Git/GitHub, Docker, Figma
Soft Skills – Attention to Detail, Analytical Thinking, Communication, Problem Solving, Collaboration

CERTIFICATIONS & TECHNICAL TRAINING

SQL Basics – BornToDev, Certificate
Automation Testing Robot Framework – Cloudnatician (CloudNC), Technical Training
Automating Pipelines with Jenkins (CI/CD) – Technical Training
Code Quality & Security Gate with SonarQube – Technical Training
Web Security Implementation (OWASP Top 10) – Technical Training
API Gateway and Software Architecture Fundamentals (Kong API Gateway) – Certificate

ACADEMIC PROJECTS

Store mate 12/2025 – Present
E-commerce Web Application

- Features: Product listing, shopping cart, checkout flow, and LINE OA integration.
- QA Action: Designed and executed manual/API test cases using Postman to validate core business workflows and data persistence.

Real-time Chat Application
MERN Chat

- Features: Real-time messaging UI, user online status tracking, and active session management.
- QA Action: Conducted integration and end-to-end testing on socket stability and UI responsiveness under active user connections.

SE Restaurant

- Features: Full-stack restaurant system with responsive layout and RESTful API architecture.
- QA Action: Performed integration testing and debugged complex proxy and backend services using Docker.
